

## **Commentary on the FLA Report**

In June 2003, the Fair Labor Association published its first audit report of selected factories from a number of countries that are manufacturing apparels and shoes for the FLA members. This report is available on FLA's website at [www.fairlabor.org](http://www.fairlabor.org).

An analysis of this report was carried out by ICCA and made public on June 12, 2003. This was followed by an exchange of communications between Mr. Mike Posner, Director of FLA and Executive Director of Lawyers Committee for Human Rights and Prof. Sethi, President of ICCA.

At Mr. Posner's request, we have included both his reaction to our analysis and ICCA's response.
